**The City of Lynchburg's Regional Wastewater Treatment Plant intends to purchase a used Sharples DS-706 Super-D-Canter Centrifuge for \$100,000.00 + shipping costs not to exceed \$5,000 from:
Aaron Equipment Company, Inc.,
201 Hansen Ct., Suite 125, Wood Dale, IL 60191**

This equipment is essential for continued operations by the Lynchburg Regional Wastewater Treatment Plant. This specific brand of centrifuge is currently in use at the plant and this equipment will provide the compatibility needed to provide maintenance parts for existing equipment.

The seller has guaranteed a 14-day acceptance period with a written 10 business day return policy in the event that the unit is unacceptable.
